

I am running for one of the positions of Trustee. I made this decision following my experience on the Board at an Appendix B Hearing.

I feel it mandatory that there be oversight of finances on the state level. I find the communication among Locals is sadly lacking; without communication, people take advantage of others as happened at my Local recently; the result cost CUE members statewide and could have easily been avoided.

I will work in concert with the other trustees to obtain training for this position; I will perform my duties honestly and report the results to the membership.

Helen Jefferson
