

ELECT JUDY

for SOUTHERN VICE PRESIDENT

Judith Sweeney
Admin Asst III
Dept. of Chemistry & Biochemistry
UCLA

I've worked off and on at UCLA since the early '70's, when I was a student here, and started my current position as an AAsst III nearly eight years ago. I became a member of CUE not long afterwards. Since then I've helped organize my department, edited the local's newsletter and chaired the Action Committee. I know and have worked with both presidential candidates. During the local's last elections I chaired the Election Committee. I am currently a steward and member of the Statewide Newsletter Committee. If elected, I would pursue the following:

- A statewide organizing campaign to prepare us to withstand UC's attack on our health care benefits and pensions and to marshal our forces for our next contract negotiations
- Improved communications between Statewide and the locals and stronger regional ties among the southern locals
- Increased member involvement
- A regional education program
