- After months without a contract for clerical workers, UC told CUE “take it or leave it” and walked away from bargaining.
- UC has offered researchers and techs in UPTE only a 1.5% raise each year for the next three years.
- UC refuses to agree to fair raises for its workers, despite having over \$2 billion in unrestricted reserves, and despite awarding top administrators 25% raises this year.
- Last week, UC committed MORE unfair labor practices by withdrawing wage proposals it had already made to UPTE and CUE.
